Important notice – Tax return submission service

Following changes to HMRC's requirements, you will still be able to submit tax returns with your credentials but we will no longer provide a submission service from **1 August 2026**. This applies to all types of return, including Corporation Tax returns.

As a result of this change, we will also withdraw our **Very Simple Partnership Return** submission service.

If you have not registered for an HMRC online account, we strongly recommend that you do so as soon as possible. Without an HMRC account you may not be able to submit returns electronically yourself. If you intend to use a tax adviser, you should ensure they have the appropriate arrangements to submit returns on your behalf.

If you are submitting a Company Tax Return yourself, you will generally require a Business Tax Account in the name of the company. For Partnership Returns, you will generally require a Government Gateway account in the name of the partnership.

Government Gateway credentials consist of a 12-digit user ID together with your chosen password. Information about registering for, accessing or recovering your HMRC online account is available on HMRC's website.

Tax agents should ensure they have the appropriate HMRC registrations and filing arrangements to continue acting for their clients.

Agents can register here: Apply for an agent services account - GOV.UK

THIS CHANGE DOES NOT AFFECT AGENTS AND INDIVIDUALS WHO USE OUR SOFTWARE, IT ONLY AFFECTS QMS FILING OF TAX RETURNS
